This presentation does not constitute or form part of and should not be construed as an advertisement of securities, an offer or invitation to sell or issue or the solicitation of an offer to buy or acquire or subscribe for securities of X5 Retail Group N.V. or any of its subsidiaries or any depositary receipts representing such securities in any jurisdiction or an invitation or inducement to engage in investment activity in relation thereto. In particular, this presentation does not constitute an advertisement or an offer of securities in the Russian Federation.

No part of this presentation, nor the fact of its distribution, should form the basis of, or be relied on in connection with, any contract or commitment or investment decision whatsoever.

No representation, warranty or undertaking, express or implied, is given by or on behalf of X5 Retail Group N.V. or any of its directors, officers, employees, shareholders, affiliates, advisers, representatives or any other person as to, and no reliance should be placed on, the fairness, accuracy, completeness or correctness of the information or the opinions contained herein or any other material discussed at the presentation. Neither X5 Retail Group N.V. nor any of its directors, officers, employees, shareholders, affiliates, advisers, representatives or any other person shall have any liability whatsoever (in negligence or otherwise) for any loss howsoever arising from any use of this presentation or any other material discussed at the presentation or their contents or otherwise arising in connection with the presentation.

This presentation includes statements that are, or may be deemed to be, "forward-looking statements", with respect to the financial condition, results, operations and businesses of X5 Retail Group N.V. These forward-looking statements can be identified by the fact that they do not only relate to historical or current events. Forward-looking statements often use words such as "anticipate", "target", "expect", "estimate", "intend", "expected", "plan", "goal" believe", or other words of similar meaning.

By their nature, forward-looking statements involve risk and uncertainty because they relate to future events and circumstances, a number of which are beyond X5 Retail Group N.V.'s control. As a result, X5 Retail Group N.V.'s actual future results may differ materially from the plans, goals and expectations set out in these forward-looking statements. X5 Retail Group N.V. assumes no responsibility to update any of the forward looking statements contained in this presentation.

This presentation is not for distribution in, nor does it constitute an offer of securities for sale, or the solicitation of an offer to subscribe for securities in Australia, Canada, Japan or in any jurisdiction where such distribution, offer or solicitation is unlawful. Neither the presentation nor any copy of it may be taken or transmitted into the United States of America, its territories or possessions, or distributed, directly or indirectly, in the United States of America, its territories or possessions or to, or viewed by any U.S. person as defined in Regulation S under the US Securities Act 1933 (the "Securities Act"). Any failure to comply with these restrictions may constitute a violation of United States, Australian, Canadian or Japanese securities laws. The distribution of this presentation in certain jurisdictions may be restricted by law and persons into whose possession this document or any other document or other information referred to herein comes should inform themselves about, and observe, any such restrictions. Any failure to comply with these restrictions may constitute a violation of the securities law of any such jurisdiction.

For Russian law purposes, the securities mentioned in this presentation (the "Securities") represent foreign securities. It is not permitted to place or publicly circulate the Securities on the territory of the Russian Federation at present. No prospectus for the issue of the Securities has been or is intended to be registered with the Federal Service for Financial Markets of the Russian Federation. The information provided in this presentation is not intended to advertise or facilitate the offer of the Securities in the territory of the Russian Federation. This presentation does not represent an offer to acquire the Securities or an invitation to make offers to acquire the Securities.

The information and opinions contained in this document are provided as at the date of this presentation and are subject to change without notice. Some of the information is still in draft form and neither X5 Retail Group N.V. nor any other party is under any duty to update or inform recipients of this presentation of any changes to such information or opinions. In particular, it should be noted that some of the financial information relating to X5 Retail Group N.V. and its subsidiaries contained in this document has not been audited and in some cases is based on management information and estimates.

Neither X5 Retail Group N.V. nor any of its agents, employees or advisors intend or have any duty or obligation to supplement, amend, update or revise any of the statements contained in this presentation.

Comments

- Russian food retail market is one of the most attractive markets to invest in the world:
 - ✓ 5th largest food retail market in Europe
 - ✓ Modern retail penetration of 40%; well below average of CEEMEA and developed markets
 - ✓ Top-5 players occupy only about 13% of the market versus, for example, 20% in Turkey and 65% in UK

Food Retail Market vs. Top-10, RUR Growth

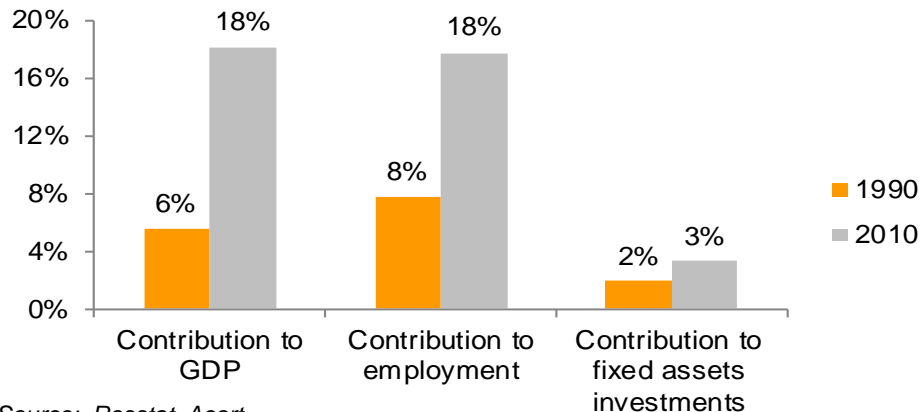

Sources: Rosstat, X5 estimates

Comments

- Russian Retail market Compound Average Growth Rate (CAGR) forecast for 2012-2014: ~ 6-10%, nominal terms
- We expect CAGR of leading (Top-10) players to substantially exceed the market's nominal growth rates to reach 15%-25% in next 3 years, on declining market share of non-modern retail trade
- Modern retail formats will partially cannibalize market share of open markets, kiosks and other non-organized retailers to reach at least 50% within the next 3-5 years

Contribution of trade to Russian economy

Contribution of trade to Russian state budget, 2010

Source: Rosstat, Acort

Comments

- Trade sector represents one of the key contributors to Russian economy:
 - ✓ Trade input to GDP has tripled from 1990 to 2010
 - ✓ Trade contribution to employment has more than doubled since 1990
 - ✓ Trade share in Russia's fixed assets investments has been up by about 50% from 1990 to 2010
 - ✓ Tax input from trade to the state budget is comparable to that of crude oil production
- Consumer's per capita spending on grocery has grown by approximately 66% from 2007 to 2011

VI Summary

SG&A expenses, as a percentage of net sales, decreased by 80 bp y-o-y to 19.7% primarily due to a decrease in other expenses:

- **staff costs**, as a percentage of net sales, increased by 10 bp y-o-y to 8.1% primarily driven by an increase in store personnel associated with the increase in new store openings, employee bonuses and a net expense recognized on the Company's long-term incentive plans, resulting from the remeasurement of the plans liabilities at 30 June 2012, compared to income recognized on the plans and a reversal of accrued bonuses in the corresponding period of 2011
- **lease expenses**, as a percentage of net sales, decreased by 10 bp y-o-y to 3.6% due to the impact of temporary closures during the integration of Kopeyka in Q2 2011. As a percentage of X5's total real estate portfolio, leased space accounted for 54.4% at 30 June 2012 compared to 52.0% in the corresponding period of 2011
- **other store costs** increased, as a percentage of net sales, by 20 bp y-o-y to 1.6% mainly due to the reclassification of security expense and maintenance expense from staff costs to other store costs
- **utilities expense**, as a percentage of net sales, decreased by 20 bp y-o-y in Q2 2012, to 2.0% due to the impact of cost-saving initiatives
- **other expenses**, as a percentage of sales, decreased by 100 bp primarily due to the completion of the Kopeyka integration in Q3 2011, a decrease in a bad debt expenses, and the release of historical provisions for legal and tax risks.

- **Net cash flows generated from operating activities** totaled USD 69 mln compared to net cash flows used in operating activities of USD 66 mln in the corresponding period of 2011. The increase was primarily due to changes in working capital. In Q2 2012, changes in working capital resulted in a negative effect on cash flows from operating activity of USD 85.3 million compared to a negative effect of 241.7 million in Q2 2011
- **The change in working capital** in Q2 2012 was primarily driven by an increase in VAT receivables, driven by internal improvements in processing VAT claims on purchases, resulting in a lower net VAT payable. The decrease in Q2 VAT payable was partially offset by an increase in trade accounts payable in Q2 2012
- **Net cash used in investing activities** totaled USD 194 mln and USD 375 mln in Q2 and H1 2012 respectively, compared to USD 172 mln and USD 270 mln for the corresponding periods in 2011 due to an increase in store openings in the 2012 periods
- **Net cash generated from financing activities** increased in Q2 and H1 2012 to USD 126 mln and USD 157 mln, respectively, and was related to an increase in short-term credit facilities to finance working capital needs
